

# This week's challenge

Look around you and Macgyver with what materials you have.

POST What materials you have, and what idea you have for using them if you'd like. Take pictures of what you are discovering and learning and creating and post them on class dojo.

If you have a hard time thinking what you want to create inspiration can start anywhere: from the materials you have, from the prompts below to spur your thinking, or from an example on Pinterest that have a technique you'd like to do.
